MISSION STATEMENT

The goal of Source Life Center Inc., is to offer women, their unborn children and their families residing in Newton County, Georgia and the surrounding territories, assistance and resources in preparing for parenthood.

We exist to provide women and men involved in crisis pregnancies with necessary support services needed to enable them to carry their babies to birth. Such services shall include, but are not limited to: Providing free assisted pregnancy tests, maternity and baby accessories, parenting education, adoption referrals, post-abortion counseling, abstinence training and ongoing friendship and encouragement.

This program is greatly needed in Newton County because of the rapid growth of our county and the large number of crisis pregnancies. SOURCE will also provide referrals for low cost legal and medical help, temporary housing and shelter.

Reported by Georgia Right to Life, there were 32,066 abortions performed in Georgia in 2008. The last report in Newton County, Georgia shows over 400 recorded abortions.

So far, Source Life Center Inc., formerly known as the Source Pregnancy Care Center, has helped over 300 clients since we opened our doors in September 2007.

Thank you for your help and support in this community effort to save lives.

Sincerely,

James Roach Jr.
Executive Director
